

ORANGE YIELD TEST

Item:	ORANGE
AP Weight (oz):	
EP Weight (oz):	
Product Loss (oz):	
AP (Purchase) Price:	\$ case _____ \$ each _____ \$ # _____
Waste %:	
Yield %:	
EP Cost per #:	

Oranges (Navel)
\$14.07/ case
88 in a case.
1 case weighs 40#

Formulas

Product Loss = AP Weight - EP Weight
Waste % = Product Loss/AP Weight
Waste % = 100% - Yield %
Yield % = 100% - Waste %
EP Weight = AP Weight * Yield %
(Remember to use decimal version of % when calculating)
EP Cost per # = AP Price / Yield % (Remember to use decimal version of % when calculating)
