

Structure, Strategies, and Style: Energizing Your Classroom

Dr. Fred Mayo Best Practices in Education, Café Leadership Conference June 19, 2015

"Those who know, do. Those that understand, teach."

Aristotle

+

"Far and away the best prize that life offers is the chance to work hard at work worth " doing.

Theodore Roosevelt

+ Agenda

Value of reflection
Teaching structures
Teaching strategies
2 Models of teaching styles
Energizing yourself and your classroom

Reflection on Teaching

The pauses and ruminations about what kinds of teacher you are and want to be

+ Reflecting on Teaching

- In your notebook, turn to page 1 and answer the four questions there
- Then you will pick one (maybe question
 1) to share with a neighbor
 - Take two minutes to write and two minutes each to share

"Thought is the sculptor who can create the person you want to be." ~Henry David Thoreau~

Reflecting on Teaching - 2

- Who am I as a teacher?
- Who did I want to be?
- Who do I want to be?
- What do I want to change?

"Thought is the sculptor who can create the person you want to be." ~Henry David Thoreau~

Reflecting on Teaching - 3

- Insights you want to share?
- What surprised you to write down?
- What disappointed you?
- What about your identity can you work on today and this weekend?

"Thought is the sculptor who can create the person you want to be." ~Henry David Thoreau~

+

Teaching Structures

Ways of organizing lectures, demonstrations, class activities and assignments to maximize student learning and success

Structures for Class Periods

- Begin a class with warm-up, agenda, focusing
- End a class with a specific wrap-up and transition to the next time
- Plan transitions between activities
- Sequence the activities around student's needs and the subject
- Change the format from time to time variety counts

Structures for Lectures and Demonstrations

- Orient students to information quotes, agendas, questions
- Help students learn to listen and take notes
- Separate major from minor points
- Use organizers in your lecture
- Deliver it for the student's perspective
- Build in processing time for the information

+ Structures for Activities

- Plan ahead in detail
- Decide about method for grouping students
- Group students first and explain task second
- Observe the interaction and think about how to do it better next time
- Allow time for processing and reflection the real learning

Structures for Assignments

- Provide oral and written information about assignments ahead of time
- Discuss details about goals, structure and criteria for evaluation
- Provide models (where appropriate)
- Make information available in separate documents
- Remind them about assignment deadlines and evaluation criteria

+

Teaching Strategies

Activities and techniques to help students learn material – ideas, facts, skills, and attitudes

Problems with Lectures and Demonstrations

- 1. Students unprepared for the material at that moment
- 2. Student minds wander
- 3. Students cannot connect information with past experience
- 4. Teachers focus on content
- 5. Teachers use their structure
- 6. Teachers do not read student behaviors

+ Strategies for Lectures and Demonstrations

- Create mind maps
- Take active notes
- Use graphic organizers
- Discuss the material with peers
- Organize lecture points
- Summarize the lecture in notes
- Encourage doodling

If I'm Talking You Better Be Taking Notes.

+ Problems with Activities

- Conversion to fun and games
- Lack of skill in participating in group activities
- No timing of their group work
- Fear of embarrassing themselves
- Fear of competition
- Lack of notes

Strategies for Activities

- Design activities carefully
- Emphasize the learning purpose
- Provide clear instructions in the beginning of the class and term
- Use a wide variety of activities
- Teach them how to participate
- Try declare, pair, share, air

Focus on the reflection after the event

Problems with Assignments

- Lack of attention to detail
- Rollover from previous assignments
- Concurrent assignments
- Fear of failing
- Lack of experience in some types of assignments
- Excitement

Strategies for Assignments

- Provide information in various media
- Invite questions about assignments
- Ask them to explain the assignments
- Flow with changing dates when possible
- Encourage self-evaluation

+ Four Teaching Strategies

Mastery Strategies focus sharply on increasing students' abilities to <i>remember</i> and summarize. They motivate by provid- ing clear sequence, speedy feedback, and a strong		Interpersonal Strategies foster students' need to relate personally to the cur- riculum and to each other. They use teams, partner- ships, and coaching to motivate students through
sense of expanding competence and measurable success.		their drive for membership and relationships.
	Four-Style	Strategies
	engage all four styles simultaneously, thereby encouraging students to develop a balanced and dynamic approach to learning.	
Understanding Strategies		Self-Expressive Strategies
seek to evoke and develop students' capacities to reason and use evidence and logic. They motivate by arousing <i>curiosity</i> through mysteries, problems, clues, and opportunities to analyze and debate.		highlight students' abilities to imagine and <i>create</i> . They use imagery, metaphor, pattern, and what if's to motivate students' drive toward individuality and <i>originality</i> .

+

Teaching Styles

Ways of helping students learn using the personality and skills of an individual instructor

"Learning is finding out what you already know. Doing is demonstrating that you know it. Teaching is reminding others that they know it just as well as you. You are all learners, doers, teachers."

unknown

+ 5 Pure Teaching Styles

- 1. **Expert** person who shares information
- 2. Formal authority person who sets rules, norms, standards of performance
- 3. **Personal model** person who uses own experience and example
- 4. **Facilitator** person who guides by asking questions and exploring ideas
- 5. **Delegator** person who helps students learn on their own
